

## Biography

Dr. Greta Massetti is the co-Lead of the Community Interventions and Critical Populations (CICP) Task Force on CDC's COVID-19 response. CICP is responsible for developing guidance and practical tools for community mitigation activities and attending to special populations, particularly those disproportionately affected by COVID-19. CICP is engaged in strengthening technical assistance efforts to states and communities as well as through key partners to optimize community mitigation efforts. When not engaged in the COVID response, Dr. Massetti is a branch chief and senior epidemiologist in the National Center for Injury Prevention and Control at CDC. Dr. Massetti has previously served on several of CDC's emergency responses, including Ebola.
